

Delivery Information

DELIVERY SERVICE

Our standard delivery service covers England and Wales weekly and Ireland and Scotland fortnightly.

Our pricing includes delivery on all orders over £400 on our standard weekly service. Additional chargeable deliveries can often be arranged with your internal account manager. We also offer home/site delivery service options with one or two men depending on the size of delivery and site conditions.

Delivery confirmations for our own dedicated service will be emailed or texted the previous afternoon to confirm if AM or PM the following day. Please ensure an email address and/or mobile phone number is supplied on your order.

DELIVERY CHARGES

Over £400 net on standard run	Nil
Under £400 net on standard run	£40.00
All orders required on a different day to standard delivery run	POA
Collection from distribution depot	Nil
Pre agreed time slot for standard deliveries	£45.00
Site delivery charge one man offload	£55.00 extra
Site delivery charge two man offload	£105.00 extra
Redelivery of goods	£35.00 extra
Deliveries to Scotland	£30.00
Deliveries to Ireland	£65.00

Carrier services

Component items up to 5kg (Including singular tube motors)	£7.50
Component items up to 5kg	£25.00

COMPONENT ORDERS

All small component orders required next day must be received by 2.00pm the day before delivery. Orders placed on Friday must be received by 12 noon for delivery on Monday.

If you require powder-coated items, please allow an additional 24 hours at least from receipt of order. Items for assembly need to be booked in for manufacturing – for example complete shutter curtains. Please allow a minimum of three working days depending on delivery method. Regrettably it is not possible to send items over 5m in length by overnight carriers.

IMPORTANT DELIVERY NOTES

Site deliveries will only be made if the installer is in attendance to assist off loading or if extra help with off-loading has been prearranged.

The most cost effective and safest way of delivering orders is via our own transport. Please try to tie orders in with your normal delivery runs wherever possible.

In the event of using a carrier we need to use reinforced packaging, which is covered in the carriage charge.

CRATE CHARGES

POA Please speak to an account manager.

RETURNS

Occasionally it may be necessary to return an item to us. Please contact your Account Manager for a consignment number and please ensure the product is packaged adequately for transport.

SeceuroGlide compliance with the latest CE standards

The SeceuroGlide range is fully compliant with the latest European product directives and standards including BSEN 13241-1 applicable from the 1st May 2005.

SeceuroGlide peace-of-mind warranties

SeceuroGlide products are guaranteed against defect of material or workmanship by SWS UK, subject to correct installation, maintenance and operation, for a period of 5 years from date of purchase. In addition, Mahogany, Rosewood and Golden Oak Textured Woodgrain finishes carry a limited 10 year guaranteed.

Please note darker coloured double doors that are exposed to significant direct sunlight may be susceptible to expansion which may interfere with the operation of the door.

SeceuroGlide extreme weather conditions

High winds and high temperatures can cause increased deflection of the door. It is the installer's responsibility to ensure that the door is packed off the wall sufficiently to allow for door movement during these extreme weather conditions.

5 YR WARRANTY
UK EXCLUSIVE FULLY COMPREHENSIVE WARRANTY

In addition to warranty covering SWS made parts, the high quality Somfy Motor fitted to all SeceuroGlide powered garage doors carries a maker sponsored 5 year warranty.

SWS UK is proud to be an official supporting supplier of The Association Of Garage Door Specialists.

For more information on the range visit:
www.rollergaragedoors.co.uk

Approved supplier:

CE
The SeceuroGlide range is CE marked by the manufacturer under the Construction Products Regulation and supports installer CE marking under the Machinery Directive.

Roller Garage Doors

The closest you'll get to the perfect roller garage door

Price list valid from August 2014

SeceuroGlide / SeceuroGlide Excel insulated roller garage doors

An elegantly simple, yet well proven design, SeceuroGlide is robust, reliable and durable – offering secure protection for your car and home. A choice of low maintenance finishes, insulation and the convenience of remote automatic operation powered by a high quality Somfy drive unit as standard make SeceuroGlide an excellent all round choice.

SeceuroGlide's aluminium slats lock into position to resist attack by intruders, while advanced insulation and brush sealing keeps out the cold and makes the door as weatherproof as it is secure. Vertical opening means you can make maximum use of your drive and garage space – parking safely just inches from the door.

SeceuroGlide doors are supplied complete with your choice of receiver. The SeceuroSense receiver, which comes with a choice of two remotes, includes a courtesy light, bottom slat

transmitter, optical safety edge and internal manual override. The Rollixo receiver comes with two remotes and a bottom slat transmitter.

A choice of SEVENTEEN paint or woodgrain effect low maintenance finishes help you to match your door to existing paintwork or woodgrain double glazing for a coherent look to your home's exterior. Our SeceuroGlide and SeceuroGlide Excel is also available powder coated to any RAL or BS number for a surcharge.

SeceuroGlide Excel combines all the benefits of SeceuroGlide with an even higher security specification, and is officially tested and approved to Police and insurance standards. Available at a surcharge on the price of a standard SeceuroGlide.

SeceuroGlide special notes

For SeceuroGlide, the Drive Through Width (DTW) when using 75mm guides is equivalent to Over Guide Width (OGW) minus 150mm.

* Except when the overguide is greater than 4600mm: DTW with 90mm guides is equal to OGW minus 180mm. SeceuroGlide Excel is **always** supplied with 90mm guides.

The Drive Through Height is equivalent to 55mm less than the Guide Height.

Please note these prices are for white or mid-brown boxes only. Boxes can be powder coated to match standard colour, but will be subject to a surcharge (page 8). Powder coated boxes may be a slightly different shade to the curtain. If powder coated end plates are required they will be subject to the standard surcharge.

S Renolit woodgrain finishes are available at the same cost as Mahogany, Rosewood and Golden Oak; however longer lead times may apply. Please contact your account manager for further details.

Security and resistance to high winds

SeceuroGlide doors offer excellent security against intruders, combining a patented locking system, rolling code remote control technology and tough aluminium construction, independently tested to a minimum Class 2 wind resistance classification, which is equivalent to 59mph winds (Force 10 Storm).

SeceuroGlide / SeceuroGlide Excel general information

- Unless requested otherwise, tubular motors will be fitted on the left hand side of each door (when viewed from inside the garage looking out).
- Where specified, bottom and vision slats along with guide rails may be a slightly different shade to the curtain
- SeceuroGlide Cedar & Teak woodgrain doors are supplied with brown bottom slat and brown vision slats when required.
- Mahogany, Golden Oak and Rosewood doors are supplied with brown vision slats when required. Mahogany, Golden Oak and Rosewood Textured Woodgrain doors supplied with matching bottom slats and brown inner face, guides and end plates as standard.
- Powder coated guide rails, bottom slats and where specified vision slats are supplied as standard though they may not match the door exactly. Guide rails in Anthracite, Light Grey, Silver Metallic, Ivory and Heritage Green will attract a surcharge of £2945 per door.
- 45 degree box cover only applicable to doors with a 300mm head room.
- The minimum ordering width for SeceuroGlide is 1050mm over guides. For SeceuroGlide Excel, the minimum ordering width is 1500mm over guides.
- We recommend the use of photo cells in addition to the standard bottom slat sensor in garages where a vehicle will be parked close to the door. Moreover, where a door opens directly onto a pavement or in a public area, a combination of bottom slat sensor and photocells is a statutory requirement. Photo cells are not compatible as standard with SeceuroSense but can be specially ordered.
- All SeceuroGlide Excel doors are supplied with 90mm guide rails as standard.
- SeceuroGlide Excel must always be fitted internally.
- Low level override option not available for SeceuroGlide Excel. Where the garage door is the only means of exit from a garage a battery backup will be required.

SeceuroGlide / SeceuroGlide Excel profiles and sizes

SeceuroGlide Excel guide rail notes:
 * 90mm guide rails supplied as standard on SeceuroGlide Excel.
 ** Reveal fitted guide rails require steel reinforcement plates.

Optional Box
 'Distance A' = 300mm.
 'Distance B' = 350mm.

SeceuroGlide's locking system.

High performance webbing cushions slats during operation to reduce marking and noise.

Foam filled aluminium slats typically finish 150mm above the opening to improve weather seal.

SeceuroGlide with NO box

Burgundy, Brown, White, Light Beige, Fir Green, Navy Blue, Black, Anthracite, Light Grey, Silver Metallic, Ivory, Heritage Green, Cedar or Teak woodgrain finish.

SeceuroGlide Compact internal/external fitting roller garage door

The SeceuroGlide Compact has been developed especially for garages with limited headroom.

SeceuroGlide Compact's insulated aluminium slats are narrower than those used for the SeceuroGlide allowing a tighter, smaller coil which requires just 8" (205mm) clearance above the opening height. An extensive range of sizes also means openings of up to 2880mm wide can be accommodated.

Extremely versatile, the door can be fitted either in front or behind the garage opening – or, drive-through height permitting, within the garage opening itself.

A neat 90° fascia completely conceals the back of the door's coil with an optional 45° canopy available which completely encloses the coil.

The Compact comes in 12 paint and 3 woodgrain low maintenance finishes. Other RAL or BS colours available at a surcharge of £45 per metre square.

SeceuroGlide Compact doors are supplied complete with a SeceuroSense receiver and your choice of two hand transmitter. The SeceuroSense receiver includes a courtesy light, bottom slat transmitter, optical safety edge and internal manual override. (Where no hand transmitter choice is specified two two button black smooth hand transmitters will be supplied)

SeceuroGlide Compact surcharge of £34 for guide rails and £103 for guide rails and box on Black, Burgundy, Navy Blue, Light Beige, Light Grey, Teak, Ivory, Metallic Silver and Anthracite

The Drive Through Width (DTW) when using 60mm guides is equivalent to Over Guide Width (OGW) minus 120mm.

The Drive Through Height is equivalent to 50mm less than the Guide Height.

†† Mahogany, Golden oak and Rosewood finishes are unsuitable for external mounting.

* Longer lead times may apply please check with your account manager.

§ See page 2

Security and resistance to high winds

Despite being slimmer than standard SeceuroGlide doors, Compacts still offer security against intruders, combining a sturdy locking system, rolling code remote control technology and tough extruded aluminium, independently tested to a minimum Class 2 wind resistance classification, which is equivalent to 59mph winds (Force 10 Storm).

SeceuroGlide Compact general information

- Vision slats are NOT available on the Compact.
- Please note the SeceuroGlide Compact will NOT require an anti-fall back device.
- The minimum ordering width for SeceuroGlide Compact is 1050mm over guides.
- SeceuroGlide Compact internal comes with a half box 90° fascia as standard.
- SeceuroGlide Compact external comes supplied with a 'full box'.
- The Compact is a lower security design than the standard SeceuroGlide and is unsuitable for exposed locations – other products are available for this application – ask for details.
- Powder coated guide rails, box and head plates are supplied as white, brown or green as standard. Should you wish the box and guides to be powder coated in a different colour to the standard colours available this is possible for a surcharge of £34 for powder coated guiderails, £103 for powder coated guide rails and box.
- To ensure compliance with the Construction Products Regulation SeceuroGlide Compact must be installed with either a SeceuroSense remote control or a 'hold-to-run' switch or key switch.
- We recommend the use of photo cells in addition to the standard bottom slat sensor in garages where a vehicle will be parked close to the door. Where a door opens directly onto a pavement or in a public area, a combination of bottom slat sensor and photocells is a statutory requirement.
- Unless requested otherwise, when installed internally, tubular motors will be fitted on the left hand side of each door (when viewed from inside the garage looking out). Alternatively, unless requested otherwise, when installed externally, tubular motors will be fitted on the left hand side of each door (when viewed from outside the garage looking in).
- Marking may occur at the top of the concave (coil) side of the curtain over time. This is unavoidable and due to prolonged contact with the locking system.
- SeceuroGlide Compact textured woodgrain doors are supplied with matching bottom slats and brown inner face, guides, end plates and half box as standard.

SeceuroGlide Compact profiles and sizes

The Compact features a rugged locking system for peace-of-mind security.

The Compact's tight roll fits inside an amazingly small 205mm square cover box.

The Compact's slimline slat is fully insulated, yet has an exposed face just 55mm high.

SeceuroGlide Manual the only insulated manual roller garage door on the market.

Developed to the same high standards and build quality as the SeceuroGlide range, SeceuroGlide Manual offers the ideal solution for applications where electricity is not available.

The SeceuroGlide Manual has been engineered with ease of use in mind to provide the smoothest operation.

The key operated lock is located in the middle of the door. Integrated handles are located in the middle and at the bottom for convenient operation from inside or outside the garage.

The vertical opening means you can make maximum use of your drive and garage space – parking safely just inches from the door.

A choice of twelve low maintenance colours are available helping you to match your door to existing paintwork (not available in woodgrain).

SeceuroGlide Manual

Burgundy, Navy blue, Light beige, Brown, Fir green, White, Black, Anthracite, Light Grey, Metallic Silver, Ivory, Heritage Green

Over Guide Width	1000mm	1500mm	2000mm	2500mm	3000mm	Headroom	Total Height

Guide Height 2300mm	£795	£912	£1029	£1126	£1254	300mm	2600mm	

SeceuroGlide Manual general information

- Bottom and locking slats may be of slightly different shading.
- Powder coated guide rails are supplied as standard, though they may not match the door exactly.
- The minimum ordering width for SeceuroGlide Manual is 1000mm over guides.
- SeceuroGlide Manual can only be fitted internally
- All SeceuroGlide Manual doors are supplied with 75mm guide rails as standard.
- Antidrop devices are supplied when required at no extra cost.
- SeceuroGlide Manual is **NOT AVAILABLE** with vision slats.
- SeceuroGlide Manual is **NOT AVAILABLE** in woodgrain.
- SeceuroGlide Manual is **NOT AVAILABLE** with box lid or fascia.

SeceuroGlide Manual profiles and sizes

75mm guide rails supplied as standard on SeceuroGlide Manual

The rolling bracket ensures smooth operation and reduces wear.

Patented bottom slat profile provides strength and aids operation.

Foam filled aluminium slats typically finish 150mm above the opening to improve weather seal.

- Safety Edge (price EACH)
 0 to 2500mm **£68.87**
 501 to 3500mm **£95.22**
 3501 to 4500mm **£115.92**
 4501 to 5400mm **£126.27**

- RubberSeal (without Safety Edge)
 (price PER METRE) **BS670B0** **£14.64**

Calculating size and price

SeceuroGlide / SeceuroGlide Excel

Width (Price Band Width = Over Guide Width)

Drive Through Width = Over Guide Width minus 150mm for 75mm guides

Drive Through Width = Over Guide Width minus 180mm for 90mm guides

Curtain Width = Over Guide Width minus 90mm

Height (Price Band Height = Guide Height)

Total Height = Guide Height plus Headroom (may include bottom slat hang down)

Headroom up to 2.5m Guide Height = 300mm

Headroom up to 3.5m Guide Height = 350mm

Drive Through Height = Guide Height less 55mm

SeceuroGlide Compact

Width (Price Band Width = Over Guide Width)

Drive Through Width = Over Guide Width minus 120mm for 60mm guides

Curtain Width = Over Guide Width minus 75mm (excluding endlocks)

Height (Price Band Height = Guide Height)

Total Height = Guide Height plus Headroom (may include bottom slat hang down)

Headroom up to 2.15m Guide Height = 205mm

Drive Through Height = Guide Height minus 50mm

SeceuroGlide Manual

Width (Price Band Width = Over Guide Width)

Drive Through Width = Over Guide Width minus 150mm for 75mm guides

Curtain Width = Over Guide Width minus 90mm

Height (Price Band Height = Over Guide Height)

Total Height = Guide Height plus Headroom (may include bottom slat hang down)

Headroom up to 2.5m Guide Height = 300mm

Drive Through Height = Guide Height minus 105mm
