SupraMatic 4
Supra-fast door opening and smart additional functions

Open your door supra-fast with the hand transmitter, allowing direct access from the street into your garage. Thanks to the standard Bluetooth receiver, you can also operate your door via the Hörmann BlueSecur app, meaning that you always carry your door opener with you on your smartphone. And the stainless steel operator cover impresses with an exclusive design.

Special features

Supra-fast door opening

An up to 75 % faster opening speed** of up to 25 cm/s* means you can access your garage faster.

Smart app operation ■ NEW

Using the standard Bluetooth receiver, you can control the operator on your smartphone with the Hörmann BlueSecur app (see pages 34 – 35).

Simple query of the door position

You can use the optional HS 5 BS hand transmitter or internal push button FIT 5 at any time to check that your garage door is closed.

Convenient garage ventilation

Using the ventilation position***, you can automatically ventilate your garage without completely opening the door (see pages 44 – 45).

Switchable LED lighting

The operator light with 20 (SupraMatic E) or 30 LEDs (SupraMatic P) illuminates your garage very well and up to 3 or 5 times** brighter.

Easy-to-use programming

Connected accessories are automatically detected and the operator functions are set very easily by entering a two-digit number.

Intelligent networking ■ NEW

Optional Smart Home system modules are easily connected via the HCP interface (see pages 36 – 37).

Low power consumption

In standby, the operator uses less than 1 watt and protects the environment while also saving costs.
