

SupraMatic – the supra-fast operator with many additional functions

With the combination of speed and convenience, your sectional garage door opens faster, allowing quicker access from the street into your garage. Your sectional garage door opens faster and you can drive directly from the street into your garage. The SupraMatic has many additional functions, such as being able to switch the operator lighting on and off with your hand transmitter, and the convenient option of an additional opening height to ventilate your garage. An operator cover made of brushed aluminium also provides the SupraMatic with a very elegant appearance.

Max. door width	5500 mm	6000 mm
Max. door surface	13.75 m ²	15 m ²

Standard hand transmitter
HS 5 BS black textured surface

1 Convenient querying of the door position

You can use the standard HS 5 BS hand transmitter at any time to check that your garage door is closed.

2 Faster door opening

An up to 50 % faster opening speed gets you from the street into your garage sooner.

3 Additional opening height

With the individually adjustable opening height, you can ventilate your garage without completely opening the door. Ventilation can be automatically regulated using the new, optional climate sensor. For further information, see pages 46 / 47.

4 Separately switchable operator light

The LED lighting with energy efficiency class A++ can be switched on and off separately via your hand transmitter or the IT 3b optional internal push-button unit.

5 Easy-to-use programming

All of the operator functions can be set very easily by entering a two-digit number.

6 High security

The standard photocell EL 101 included with SupraMatic P immediately detects persons and objects. Families with children especially appreciate this level of safety.
