enquiries@thegaragedoorcentre.co.uk

Your front door is a key element of your house façade. Every day you see, touch, and use it. Consequently, your door should complement the façade, be safe and secure whilst providing the very best insulation from the element's. High tech. finishes and the very best accessories should ensure maintenance free use.

Ryterna offer a wide range of made-to-measure front doors in numerous design choices including the possibility to create your individual / bespoke design. The latest technologies combined with the perfect design features ensure an outstanding appearance and performance.

'Ryterna Entry' is a part of the 'Ryterna Group' who have been manufacturing doors since 1993. With authorised dealers all over Europe and our own transport fleet we can provide the shortest possible lead times. Ryterna entrance doors are manufactured in a new efficient factory located in Kaunas, Lithuania. Sustainability in manufacture combined with the thermal performance of our products is central to our growth philosophy. Ryterna constantly seek for morally responsible and environmentally cleaner ways to improve in all areas of business.

The door frame is constructed from aluminium profiles including a thermal break to reduce thermal transference from the outer to inner skin. The door leaf's inner and outer skins are created from a single sheet 2.5 mm thick aluminium sheets (some designs may differ).

The door's inner core, assembly profiles and frames are filled with a strong environmentally friendly freon free PU foam.

Triple all round perimeter rubber weather sealing completes a combination that gives Ryterna entrance doors the following performance values:

RD80

Ryterna entrance doors are made to resist the elements and certified by IFT testing institute in Rosenheim, Germany.

Thermal transmittance

-32 Db

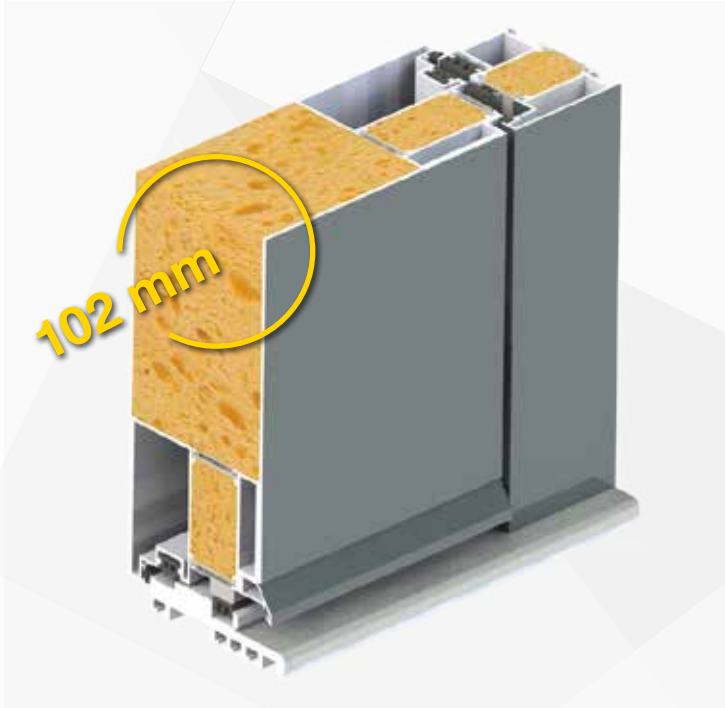

* RC2 as standard - RC3 option upgrade

A high quality durable magnetic 'pop-up' threshold is supplied with all RD80 & RD100 doors. Opening into the building and out are available.

All windows and sidelights are triple glazed with safety glass. Many decorative glass options are available including bespoke / custom engraving. Individual design elements can be added to complete your bespoke / custom doors.

All doors are made to order up to 1250mm wide & 2250mm high. For larger sizes consult manufacturer for feasibility.

RD100

Ryterna entrance doors are made to resist the elements and certified by IFT testing institute in Rosenheim, Germany.

✓ Two types of frames

1. Flat
2. Jutted

✓ Door leaf

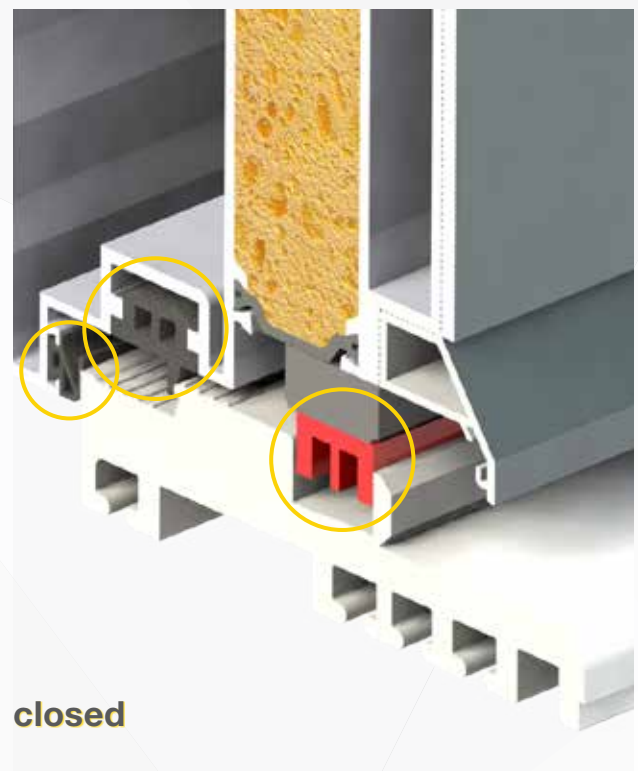

Flush leaf with aluminium sheet skin.

✓ Magnetic threshold

The 'pop-up' magnetic strip is a high quality durable and maintenance free threshold system that significantly improves insulation and draughts. Two further rubbers ensure the best possible performance.

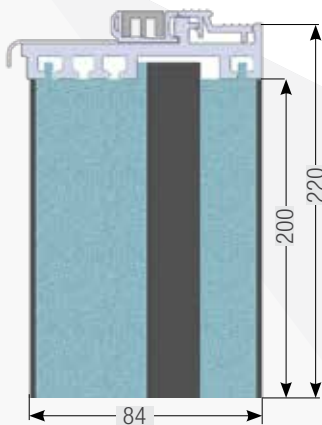

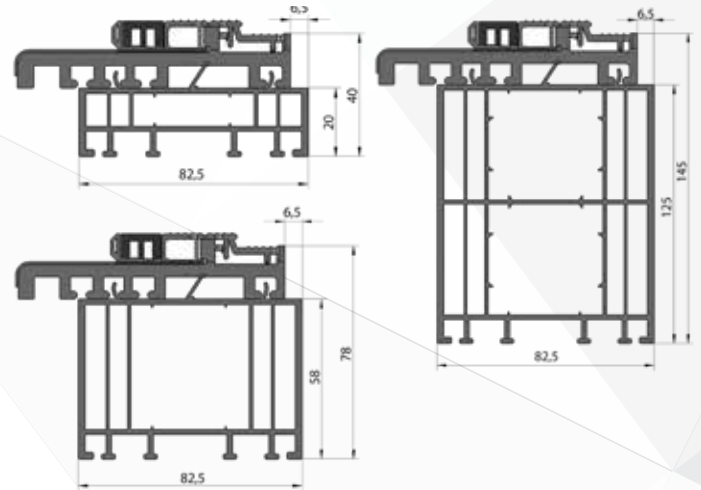

As the door closes a magnetic strip rises to create a perfect seal between the threshold and door. As the door opens the strip gently drops back into its groove reducing the step.

Our magnetic threshold has been designed to reduce the obstacles met by wheelchairs, prams and other wheeled vehicles.

✓ **Add-on bottom profiles**

Available heights:
20 mm, 58 mm and 125 mm

✓ **Add-on bottom thermo profiles**

Minimum height: 25 mm
Maximum height: 200 mm

✓ **Key cylinders
(safety classes A,B,C)**

WILKA lock cylinders are famous for their security and quality. You can choose one of three security classes: A, B or C. With C been the highest. 5 keys are supplied with all WILKA cylinders.

CWA

CWA+TT

✓ **Partial opening lock**

Available in Silver or white.

POL

✓ Locks

KFV locks are made from high-quality materials with precise workmanship.

Hi-tech mechanics ensure reliable, precise and easy operation. Lots of options starting from the simplest 3 point lock up to sophisticated 5 point lock.

KFV

✓ 3 points multiple lock **L3P**

Main lock deadbolt and hook bolts operated by the key.

✓ 5 points multiple lock **L5P**

Two round latch bolts lock the leaf on closure automatically and opens by the key. Deadbolt and hook bolts operated by the key.

✓ Day & Night **L3P+D&N**

3 point multi-point lock with option to temporary disable self-locking. Main deadbolt and hook bolts operated by the key.

✓ Electric 1 **L3P+D&N+EM**

3 point multi-point lock with electric latch and option to temporary disable self-locking. Main lock deadbolt and hook bolts operated by the key.

✓ Electric 2 **L5PMA**

5 point multi-point lock.

Round latch and hook bolts lock the leaf on closure automatically. Deadbolt operated by the key only. If deadbolt is engaged automatic unlocking is disabled.

All latches open by electric drive when turning the key or pressing lever handle.

Lock can be connected to finger-scanner or keypad (optional).

Not compatible with lever handle from outside, pull handle only.

✓ Electric 3 **L5PM (without electric motor)**

5 point multi-point lock.

Round latch and hook bolts lock the leaf on closure automatically. Deadbolt operated by the key only.

All latches and deadbolt are unlocked by pressing inside handle.

Not compatible with lever handle from outside, pull handle only.

✓ Electric 4 **L5PA**

5 point multi-point lock with all latches and deadbolt operated by electric drive. Locks automatically when closing the door. All latches and deadbolt open by electric drive when turning the key or pressing lever handle. Not compatible with lever handle from outside, pull handle only. Lock can be connected to finger-scanner and keypad (optional)

✓ Electric 5 **L5P + panic function**

5 point multi-point lock.

Round latch bolts and hook bolts lock the leaf on closure automatically. Deadbolt is locked by the key.

All latches and deadbolt are unlocked by pressing inside handle.

✓ **Triple safety glazing**

Triple glazing on door leaves and side elements. Safety glass P4A outside and inside.

✓ Keypads

EKEY keypads are secure and easy to operate.

Up to 99 individual users.

The Keypad can be installed on door leaf or on the wall.

Ekey White

KP2

Ekey Black

KP3

✓ Ekey Arte **FSC1**

Thanks to its compact design Arte finger scanner can be integrated discreetly into unusual door designs and fittings.

✓ Ekey Integra **FSC2**

The finger scanner is mounted in the wall using stainless-steel accessories (in-wall set).

The finger scanner will only operate when connected to an ekey control panel.

Both finger-scanners can be controlled by app. So you can open the door with your smart-phone and enjoy all the benefits of operation via app.

FSC1

FSC2

✓ Sommer finger scanner **FSC3**

Secure and easy to operate Sommer finger scanners Increase key free security and convenience.

*Each user can enter three separate fingerprints to control your entrance door, garage door and gates. One simple swipe opens or closes your devices as desired.

✓ Sommer remote handset **RMT1**

Sommer handsets and fingerprint scanner are compatible with each other.

*The 4-channel handset can operate up to 4 devices including your entrance door, garage door, gates or even outside lights.

The Secure rolling code handset signal cannot be copied / cloned. More key free convenience with a quality designed handset.

FSC3
