IMPORTANT INFORMATION

All doors are made to measure.

To obtain the price please check corresponding or intermediate width and height.

For door sizes exceeding price-list limits ask the manufacturer.

Please note that depicted colours are for guidance only. Use official support materials for accurate colour.

Sales and Delivery terms

1. Orders: to be sent by e-mail or fax. All given data must be clear and readable. All required information: width, height, headroom, side-room, track system, design, colours, etc. must be indicated. Correct orders will be confirmed within 48 hours. The order confirmation should be checked and corrected if necessary. Orders cancelled later than 48 hours after the order confirmation was sent will be charged for the value of goods used for production.

2. Delivery time: 3-4 weeks from order confirmation date for standard doors, and 4-6 weeks - for non standard doors (with wicket door, FV sections, custom coating). Delivery term may be postponed in case of Force Majeure circumstances or any others reasons caused by third parties. The customer will be informed in advance.

3. Delivery: to be delivered to the dealer's warehouse. Delivery to dealer's warehouse is free of charge. Deliveries to other addresses will be charged separately. At the unloading location must be an adult person capable to assist driver to unload and authorised to sign for the delivery.

4. Transportation: dealer's warehouse address on UK Mainland - free of charge (except London and Scotland).

5. Prices: are subject to be changed within 30 days notice.

Prices are in British Pounds and do not include VAT, other taxes.

6. Payment term: 30 days from the invoice date or in advance if not agreed otherwise. Manufacturer may charge average bank interest if the invoice was not paid in due time. There will be no further orders released if there are outstanding invoices.

7. Reclamation: damages or defected goods should be claimed in 5 working days after delivery. Damages made during the transportation should be fixed at unloading. Report must be made before installation if door parts are damaged during transportation, have scratches or dents or missing parts. Manufacturer is not responsible for damages made by negligent handling, unprofessional fitting or inappropriate storage.

8. Manufacturer is responsible to supply defected parts or products free of charge. The manufacturer is not obliged to cover replacement costs. No other costs related to replacing of defective parts may be charged if not accepted by manufacturer.

Ryterna Warranty Terms

Ryterna as manufacturer grants warranty covering safe and reliable function of garage doors for a period:

10 years – safe and reliable operation

2 years – locks, stays and hinges, paintwork

Normal wear and tear are not accepted as material defect.

Requirements:

Warranty claims are only applicable in the country where door was purchased. The door must be purchased through our authorised distributor.

The warranty only covers the contract object.

The fully completed product warranty card together with the receipt of purchase substantiate your right to claim under warranty.

Obligations:

During warranty period we undertake to rectify any and all defects to Ryterna product, which can be provided to be attributed to a material or manufacturing fault.

We pledge at our discretion to either exchange the defective merchandise for faultless merchandise, repair it or allow a reduction in price.

We do not accept costs of for dismantling and installation nor for carriage.

Ryterna is not liable for direct damage, like loss of profit or earning during repair or service period.

The warranty does not cover damage caused through:

Improper installation and negligent care or maintenance.

Industrial use.

Improper initial and subsequent operation.

Negligent or wanton destruction.

External influence such as: fire, water, salts, alkaline or acid solutions or any other abnormal environmental influence.

Mechanical damage through improper transportation and installation or through falling or hitting objects.

Improper use of surface cleaning or protection treatments.

Repair by nonqualified persons.

Using non Ryterna parts without written approval of the manufacturer.

Removal of product label or making it unidentifiable.

Application of additional non approved weights or infills.

Failure to remove protective film or packaging provided with product where applicable.

Small dents, scratches or imperfections if they are not visible from 3 metres distance are not considered as warranty issue.

Custom sizes, colours and mullions' layout available.

Models R40 - tension springs, max size 3500x2500

STANDARD OPTIONS INCLUDING:

Standard - low headroom double tracks (page 38)
 Extension springs UM - mounted under tracks
 Extension springs SM - mounted on side of tracks
 Extension springs TM - mounted on top of tracks
 Preassembled tracks and springs
 Spring lifetime up to 15 000 cycles
 Sandwich panels with finger pinch protection
 Panel thickness - 40 mm (PU insulated)
 Standard colour - inside: RAL 9002, stucco embossed
 Whole perimeter rubber sealing
 Standard top weather seal on the top panel
 Fixings

Models TL – torsion springs, max size 6000x3000

STANDARD OPTIONS INCLUDING:

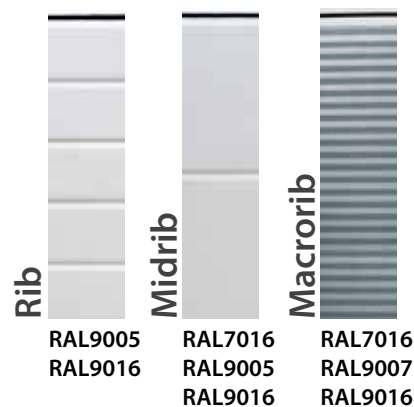

Standard - low headroom double track requires 180 mm headroom.
 Torsion springs - front mounted, optional: rear mounted torsion spring (page 41)
 Spring brake safety device
 Spring lifetime up to 15 000 cycles
 Sandwich panels with finger pinch protection
 Panel thickness - 40 mm (PU insulated)
 Standard colour - inside: RAL 9002, stucco embossed
 Whole perimeter rubber sealing
 Standard top weather seal on the top panel
 Fixings

Technical specifications for 3 x 2.5 m door	
Air permeability	Class 3
Resistance to water penetration	Class 3
Resistance to wind load	Class 5
Thermal transmittance U value	1.1 W/(m ² ·K)
Noise reduction level	-25 dB

Standard options

- Made to measure
- R40 - tension springs. UM, SM, TM tracks
- TL - torsion springs, LHR-FM tracks
- Zinc coated hardware
- Space cross-bar
- Inside colour RAL9002, stucco embossed
- Spring life-time 15,000 cycles
- Whole perimeter rubber sealing
- Top weather seal on top panel
- 40 mm thick finger pinch proof panels
- Low profile bottom rubber
- Fixings for brick/timber/metal

Headroom
for manual operation 340 mm
for electric operation 370 mm

Fitting depth: $D = H + 510$ mm
Door tracks, for operator check specifications

Min sideroom: 90 mm (recommended 100 mm)

Daylight opening: H

+PR Tracks following pitch roof slope

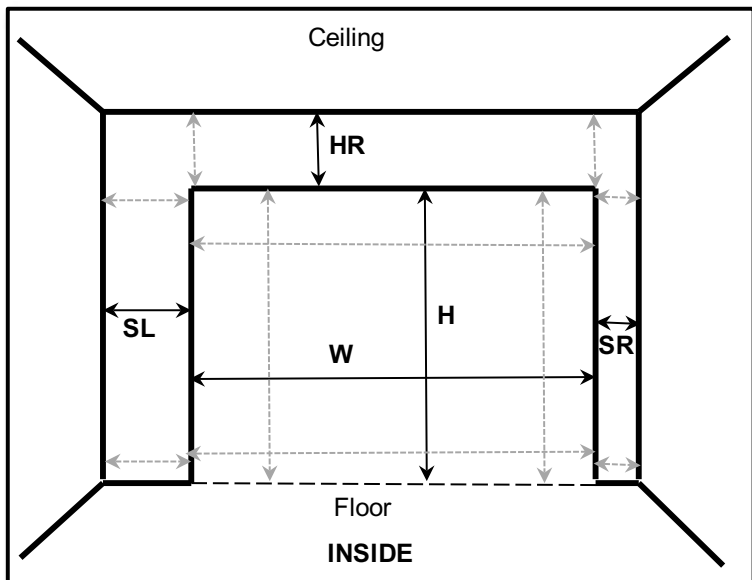

Angle	PRICE:	Available combinations
<15°	£126	FM+PR, STD+PR, RM+PR
<30°	£210	FM+PR, STD+PR

Min required headroom may vary depending on slope angle and door height. Please check 'Ryterna Technical Data Garage Doors' for required min headroom for specific door.

For custom designed garage door track systems ask manufacturer

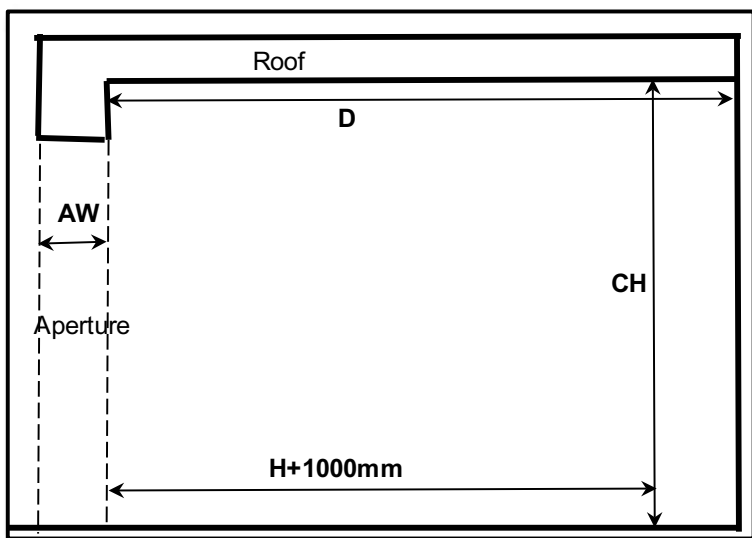

Site Survey Form

Aperture view

	(mm)	min	max
W	Width		
H	Height		
HR	Headroom		
SL	Sideroom left		
SR	Sideroom right		

For fitting Behind wall W and H must be measured on the inner side of wall. For fitting In between - W and H must be measured in fitting place.

Side view

	(mm)**	min	max
D*	Depth		
CH**	Ceiling height		
AW	Wall thickness		

* **D** must be measured on top of lintel.

**** CH** must be measured on left and right sides of the garage.

Check for: a) windows and doors on side walls (position, height, opening direction); b) additional lintels on ceiling, columns, pillars on side walls; c) pipes and cables on HR, SL, SR wall; d) sloping driveway and ceiling; e) take in to account if floor is missing or existing floor level will be changed; f) check if surfaces on HR, SL, SR walls are level / plumb, floor is level.
