

Stylish Glass Veranda, Carport & Canopy System

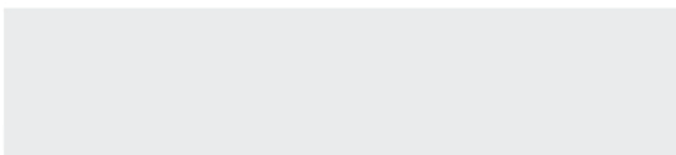

Our Simplicity 6 system is a stylish canopy, carport and veranda solution that is covered with a choice of 6mm toughened, self-cleaning Pilkington glass or 6mm solid polycarbonate. This high end, kit-form solution uses the best possible materials to produce stunning structures with the highest quality finish. We can offer a range of glazing options including coloured tints to suit your customers' requirements.

This stunning glass veranda and carport system adds a high class appearance to any building and can be covered with UV activated self-cleaning glass, making it perfect for those that want a stylish system with minimal maintenance.

- ✓ Carports
- ✓ Garden Canopies
- ✓ Outdoor Porch Areas
- ✓ Patio Cover
- ✓ Verandas
- ✓ Outdoor Play Areas
- ✓ Walkway Canopies
- ✓ And many more applications

Benefits of using the Simplicity 6 System

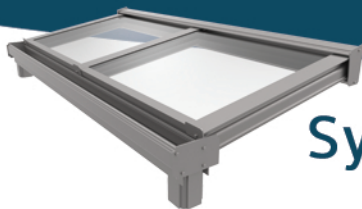

All-Aluminium System: Fully manufactured from aluminium to offer exceptional longevity and easy maintenance.

Easy Installation: We have developed this system in partnership with one of the most prolific extrusion designers in the industry and have created the simplest fixing system possible.

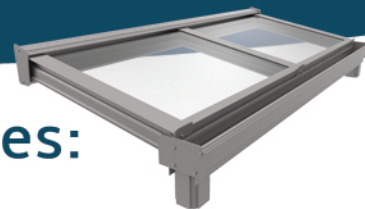

Variable Roof Pitch: Unlike the majority of roof kits, which only offer a fixed pitch this design offers a pitch range of 2.5 degrees to 22.5 degrees to give you that little bit extra.

UV Activated Self Cleaning Glass: The Simplicity 6 is covered with 6mm toughened glass which has a UV activated special coating that breaks down organic dirt and is then washed away by the rain.

Alternatively, the Simplicity 6 can be supplied with 6mm solid polycarbonate roof panels.

System Features:

- ✓ **UV Activated Self Cleaning Glass** – The glazing panels are 6mm thick toughened, self-cleaning glass that achieves Class 1 BS EN 12600 for impact resistance.
- ✓ **Low Maintenance** – Due to the self cleaning glass, less cleaning is required saving you time and money.
- ✓ **6mm Solid Polycarbonate Option:** As a cost effective alternative, the Simplicity 6 can be covered with 6mm solid polycarbonate that is vandal and shatter resistant and has a transparent appearance, similar to glass.
- ✓ **Victorian Upgrade** – The Victorian Upgrade can be added to this stylish structure, enhancing it with a characteristic and decorative design, perfect for traditional and historic buildings.
- ✓ **Integral Aluminium Guttering** – Creates a sleek, modern design which is stronger than external guttering systems and saves time on installation.
- ✓ **Wide Range of Colour Options** – The aluminium frame can be finished to any BS, RAL colour or any of our Designer Finishes.
- ✓ **Full 10 Year Guarantee** – Supplied with a full 10 year guarantee and a 25 year life expectancy for the canopy frame
