

SeceuroGlide
Vertico Garage Doors

2 YR WARRANTY

Lateral thinking.

The Vertico lateral running door offers a unique and stylish solution for any garage design, making the most of your garage space and creating a design feature for your home.

Vertico is made from aluminium foam filled slats which link together to ensure exceptionally smooth operation and insulation. This makes the Vertico an ideal choice for heated garages and workshops. The vertical design offers partial opening ensuring minimal heat-loss and provides a convenient solution for pedestrian or bicycle access.

The neat design only requires a very small amount of headroom. Vertico is fitted with a motor, radio remote control and obstacle detection device offering the ultimate in convenience and safety.

Vertico is available in numerous stylish colours as standard (see **Page 10-11**), is made to measure and is installed by trained garage door specialists. Vertico offers you a stylish and bespoke solution of the highest quality, perfectly made to suit your home.
